**Top Quality, Top Size Bulbs**

Flower Bulb Specialists Since 1868

Dear Sir/Madam

I am delighted to be sending you our new Autumn 2023 catalogue containing over 700 bulb varieties to flower next spring, of which more than 125 are either completely new to our lists, or reintroductions of old favourites. **Again, I would urge you to order early to avoid disappointment: the weather and therefore the harvests can be unpredictable, and there is always the chance of encountering shortages of some bulbs later in the year.**

We have recently had the great pleasure of seeing the Coronation of His Majesty King Charles III and Queen Camilla. The splendour, pageantry and meaningful nature of the occasion were deeply moving, and it certainly made me extremely proud to be British. Both the King and the Queen are known to be keen gardeners and environmentalists, and we are deeply honoured to be their bulb suppliers. We wish them both a long and happy reign.

Owing to the popularity of our ready-made collections, we have expanded them for both indoors and outdoors (pages 1-3), and have added some stunning bicolour Tulip mixes to be found on pages 66-67. Alternatively, why not create your own collections by means of layered plantings, which will provide a succession of flowers over a long period of time.

However, bulbs continue to be one of the most economical and self-sustaining ways to create a garden full of charm and interest, with so many varieties that can be planted to naturalise and spread of their own accord, forming carpets of colour year after year. Even the smallest garden can be enhanced by Anemone Nemerosa, Camassia, Chionodoxa, Cyclamen, Fritillaria Meleagris, Galanthus (Snowdrops), Hyacinthoides (True English Bluebells), Scilla and the naturalising varieties of mini Narcissi & Tulips. And planting these will greatly benefit bees, butterflies and many other pollinators at an important stage of their lives.

As you may know, we started selling Pictorial Meadows wild flower seed mixes about 15 years ago, and they have proved extremely popular. These have been developed at Sheffield University by Professors Nigel Dunnett and James Hitchmough, who were responsible for all the wonderful meadows at the Olympic Park. Initially they offered just annual mixes but now they have devised a range of perennial mixes, as shown on pages 70 & 71. We ourselves have sown their Persian Carpet mix at home with spectacular results. I could not recommend these mixes more highly, and if you have even the smallest area available in which to create your very own wild flower meadow, I would urge you to do so!

Directors: Mr George Clowes and The Lady Rose Clowes

As we all know, the price of nearly everything continues to increase, and this unfortunately applies to all horticultural products, including bulbs – mainly due to energy, transport and paperwork costs. We have done our very best to absorb as many of these increases as we possibly can, and we endeavour always to provide best quality, top size bulbs which are genuinely ‘true to name’. I cannot emphasise too strongly the difference in performance that the larger sizes make.

de Jager is now in its 155<sup>th</sup> year; the company has flourished by never compromising on quality, and this, together with our excellent customer service, has been appreciated by our loyal customers over many generations. It always gives us pleasure when customers go to the time and trouble of kindly sending us pictures of their de Jager bulbs – as with these beautiful Lilies and Narcissi. Please do keep sending your photographs in.

**greenfingers**  
creating magical gardens  
for children in hospices

**Horatio's Garden**

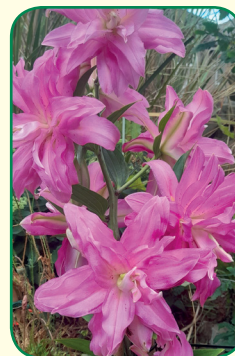

Nurturing lives after spinal injury

Charities have been very hard hit in the last few years, and we are delighted to continue our support

for two of our favourites: Greenfingers and Horatio's Garden. In the last few months, we have been able to send £3,500 to Greenfingers, who have so far built 50 gardens at children's hospices up and down the country. We also regularly provide bulbs for Horatio's Garden, who are in the process of creating their seventh garden for spinal injury patients at specialist clinics located throughout the UK. The benefits of gardens for health and well-being are very well known, and any help you could offer would be much appreciated by these two most worthwhile charities, which you can find at [www.greenfingerscharity.org.uk](http://www.greenfingerscharity.org.uk) and [www.horatiosgarden.org.uk](http://www.horatiosgarden.org.uk)

As usual the front cover of this catalogue features another fine illustration, this time of a wonderful display of the Fosteriana Four Colour Tulip Mix (pages 56 & 57) which we have specially commissioned from the up-and-coming botanical artist Alison Barter DipS.B.A(Dist).

Our website [www.dejager.co.uk](http://www.dejager.co.uk) is continuously being upgraded to provide better navigation, clarity and compatibility with mobile devices. There you will find information on all our available products and the latest news and gardening tips. We continue to offer an online **10% discount** for all retail web orders: just enter the voucher code **WEB10** during the checkout process.

We always look forward to engaging with our growing online community, so do please follow us on:

## COLLECTIONS FOR OUTDOOR POTS AND TUBS

Plant each variety in individual pots or, for a longer flowering time, plant different varieties of bulbs in layers as illustrated above. Plant bulbs 1½ inches apart, larger bulbs at the bottom of the container with the smallest bulbs at the top, leaving 2 inches of soil between each layer. Space the bulbs alternately on each layer so they are not directly on top of one another. Varieties may vary slightly from the illustration but colours will not change.

## COLLECTIONS FOR THE FLOWER BORDER **Ideal for cut flower arrangements**

The bulbs in these collections have been selected from our most popular varieties. They are ideal for planting in flower beds or containers and they also make excellent flower arrangements. The flowering times, heights and colours for each variety will be as printed on each individual pack label.

**BULBS FOR INDOOR FORCING**

**FORCING BULBS** The bulbs on the next two pages are ideal for indoor planting. Once planted the pots need to be put in a cool, dark place, keeping the soil moist. Forcing will take between 12 and 16 weeks or when the shoots are 2" to 3" high. At this stage the pots should be brought out of cold storage into a cool unheated room. Turn the pots daily in order to keep the stems straight and strong. When the foliage and buds are well developed move the pots to a bright sunny position. This 2nd stage takes between 3 to 4 weeks.

**CROCUS - LARGE-FLOWERING VARIETIES**

The large Dutch varieties are best for forcing. Pickwick and Remembrance are all time favourites but all varieties on page 9 can be forced. Pot as above approximately 1" below the soil. These bulbs require about 12 weeks in cold storage.

|              |                    |   |                        |                        |

**MULTIFLOWERING HYACINTHS**

Multiflora Hyacinth bulbs are propagated so as to produce clusters of delightfully fragrant small flowers. Each bulb will produce several slender stems on which the delicate bells are loosely set. They can be potted as above and are also ideal for naturalising in the garden.

|              |                             |   |                       |                       |  |

**PREPARED CHRISTMAS HYACINTHS**

These hyacinths are specially prepared for early forcing and for bowl and pot culture. When potting leave the tip of the bulb above soil level. Hyacinths need approximately 10 to 12 weeks in cold storage. They can also be forced in water sitting the bulb above water level so that the base of the bulb just touches the water, then place in the dark until the shoots are 2" to 3" high. Despatched from early September onwards when they are fully ready.

**HIPPEASTRUM (Amaryllis) Extra Large Bulbs**

One of the top ten favourite house-plants. This size produces two stems carrying 3 to 5 blooms. Soak the roots and lower part of the bulb in tepid water for 24 hours. Once potted place near a radiator or fire until there is 4" of growth, then move it to a sunny position. Always water at the top of the pot with tepid water.

**INDOOR-FLOWERING NARCISSI**

Follow the planting instructions on page 11. Plant so that the top half of the bulb shows above the soil line. Narcissi need 12 weeks in cold storage. Paperwhites and Grand Soleil d'Or can also be planted in pebbles with water up to the base of the bulb. To keep the water fresh add a small amount of charcoal. Place in a window and they will flower in 6 to 8 weeks.

|   |              |                                    |   |                       |                        |   |
|---|--------------|------------------------------------|---|-----------------------|------------------------|---|
|  | <b>N0726</b> | <b>Bridal Crown</b>                | Double creamy-white flowers with yellow inner segments. Highly fragrant. Can also be planted in the garden. BS: 14/+ cm.  | <b>Per 5</b><br>5.00  | <b>Per 15</b><br>14.30 |  |
|   | <b>N0721</b> | <b>Chinese Sacred Lily</b>         | Sweetly scented bunches of white flowers with orange-yellow cups. Excellent for growing in pots. BS: 16/17 cm.  | <b>Per 5</b><br>16.40 | <b>Per 15</b><br>46.75 |  |
|   | <b>N0723</b> | <b>Erlicheer</b>                   | The fully double florets are ivory-white interspersed with primrose-yellow. Heavily scented. Ideal for pot culture. BS: 15/17 cm.   | <b>Per 5</b><br>14.35 | <b>Per 15</b><br>40.90 |  |
|   | <b>N0724</b> | <b>Grand Soleil d'Or</b>           | A very showy, deep yellow with deep brilliant orange cup.<br>BS: 15/17 cm.  | <b>Per 5</b><br>12.30 | <b>Per 15</b><br>35.05 |   |
|   | <b>N0725</b> | <b>Paperwhite Grandiflora Ziva</b> | Trusses of pure white flowers. Bulbs may be placed directly in the window after planting. The larger the bulb, the more flowers per stem. Will flower 4 to 5 weeks after planting. BS: 17/+ cm. | <b>Per 5</b><br>19.40 | <b>Per 15</b><br>55.30 |   |
|  | <b>N0673</b> | <b>Tete-a-Tete</b>                 | Bright yellow flowers with paler yellow trumpet. 1-3 blooms per stem. One of the best all-round Narcissi ever. Superb naturaliser.<br>BS: 14/+ cm.  | <b>Per 5</b><br>3.95  | <b>Per 15</b><br>11.30 |   |

**COLCHICUM (Meadow Saffron)**

Colchicum are easy to grow, thriving in any well-drained soil in a sunny position. Excellent naturalisers, they will flower year after year and increase freely.

|  |              |                             |   |                      |                       |
|--|--------------|-----------------------------|---|----------------------|-----------------------|
|  | <b>C2000</b> | <b>Autumnale</b>            | A very free-flowering purplish-pink. Valuable for naturalising.<br>FT: September-October. FH: 10 cm (4"). BS: 13/+ cm.  | <b>Per 1</b><br>9.10 | <b>Per 3</b><br>26.00 |

**LILIUM CANDIDUM**

Excellent plant for conservatory or outdoors close to a south wall.

|              |                         |  |                       |                       |  |            |
|--------------|-------------------------|--|-----------------------|-----------------------|--|------------|
| <b>L3000</b> | <b>The Madonna Lily</b> | Has one of the most evocative of scents and the almost luminous satiny-white chalice-like flowers seem to glow. Makes autumn top growth which overwinters. This Lily should be planted just below the surface. They may take a season or two to establish. FT: June. FH: 100 cm (39"). BS: 22/24 cm. | <b>Per 1</b><br>12.80 | <b>Per 3</b><br>36.50 |  | <b>NEW</b> |
|--------------|-------------------------|--|-----------------------|-----------------------|--|------------|

**LILIUM ASIATIC HYBRIDS**

Nothing compares to a mass of colourful lilies in full bloom. These regal carefree plants produce many flowers per bulb, year after year with little or no extra care. Choose from a complete colour range of bright or pastel Asiatic lilies.

|              |                         |  |                       |                       |  |            |

**ASIATIC LILIES FOR POTS, TERRACES, PATIO & CONSERVATORY**

Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. These shorter varieties are ideal for pots, terraces, patios and conservatories.

|              |                   |   |                      |                       |  |            |
|--------------|-------------------|---|----------------------|-----------------------|--|------------|

**LOTUS LILIES**

This stunning new range of double Oriental Lilies produce blooms that have many petals resembling the Lotus flower. They are very long lasting and make wonderful cut flowers. Highly scented.

|              |                     |   |                       |                       |  |            |

**LILIUM ORIENTAL HYBRIDS (All are fragrant)**

Over the past few years the demand and interest in Oriental Lilies has grown dramatically. Hand in hand with this, the hybridizers in Holland have been turning out many new and interesting Orientals. If you are a lily lover, we know that you will enjoy them.

|              |                    |   |                       |                       |  |            |

**LILIUM SPECIES TURKISH CAP**

A very fine species of lilies with Turk's cap shaped blooms having down-facing flowers with recurved petals on tall upright stems.

|              |                     |   |                       |                       |
|--------------|---------------------|---|-----------------------|-----------------------|
| <b>L3361</b> | <b>Black Beauty</b> | Deep claret-red with a green star in centre. The star is outlined in white, as are the petal edges. When established this will produce as many as 40 or more flowers. FT: July-August. FH: 125 cm (49"). BS: 16/18 cm.  | <b>Per 3</b><br>11.65 | <b>Per 9</b><br>33.20 |
| <b>L3363</b> | <b>Henryi</b>       | Extremely hardy, vigorous and very free-flowering, bearing up to 30 large, gracefully-poised, nodding flowers of rich, deep orange-yellow with prominent green central line, for which the purple-black stem and glossy deep green foliage act as a perfect foil. Prefers a lime-rich soil. FT: August. FH: 120 cm (48"). BS: 16/18 cm. | <b>Per 3</b><br>11.65 | <b>Per 9</b><br>33.20 |

**TIGER LILIES**

Tiger lilies are invaluable border plants, long-lasting and of easy culture. Their imposing spikes of richly coloured Turk's Cap flowers are exceedingly effective.

|              |                        |   |                       |                       |            |
|--------------|------------------------|---|-----------------------|-----------------------|------------|
| <b>L3859</b> | <b>Chocolate Event</b> | Burgundy flowers blending to a peachy-orange colour. FT: July-August. FH: 110 cm (44"). BS: 16/18 cm.   | <b>Per 3</b><br>10.45 | <b>Per 9</b><br>29.80 | <b>NEW</b> |
| <b>L3365</b> | <b>Leightlinii</b>     | An outstanding garden variety. Slightly reflexing florets of oenothera yellow, evenly spotted chocolate-brown except for the tips. FT: July-August. FH: 120 cm (48"). BS: 16/18 cm. | <b>Per 3</b><br>10.45 | <b>Per 9</b><br>29.80 | <b>NEW</b> |
| <b>L3230</b> | <b>Red Velvet</b>      | Glorious velvety, deep red flowers. Rich and highly attractive. FT: Late July-August. FH: 90 cm (36"). BS: 16/18 cm.  | <b>Per 3</b><br>10.45 | <b>Per 9</b><br>29.80 |            |

**LILIUM TRUMPET-SHAPED HYBRIDS**

Statuesque, impressive and vigorous varieties.

|              |  |   |                       |                       |  |

When considering lilies in your garden, the first and most important factor to bear in mind is that they must have good drainage. Soil which remains waterlogged after rain is not suitable and will almost certainly mean an early death for any lily planted in it.

## ALLIUM

Alliums are very versatile bulbs. Not only are they decorative in the garden, they are also rewarding subjects for flower arrangers.

|  |   |   |                |                 |

## AMARYLLIS

Require a sheltered well-drained position. Plant these large Top Size bulbs just below the surface 30 cm (12") apart.

|   |              |                   |  |                      |                       |   |
|---|--------------|-------------------|--|----------------------|-----------------------|---|
|  | <b>M5081</b> | <b>Belladonna</b> | (The Jersey Lily). Fine deep pink flowers in elegant umbels. The flowers carry a delicate spicy perfume. FT: September-October. FH: 80 cm (32"). BS: 20/22 cm. | <b>Per 1</b><br>8.20 | <b>Per 3</b><br>23.35 |  |
|---|--------------|-------------------|--|----------------------|-----------------------|---|

## ARUM

Plant 15 cm (6") deep in well-drained, humus-rich soil in sun or light shade. Spacing 10 cm (4") apart. Excellent for naturalising.

|   |              |                 |   |                      |                       |
|---|--------------|-----------------|---|----------------------|-----------------------|
|  | <b>M5161</b> | <b>Italicum</b> | Known as 'Lords and Ladies'. Large waxy marbled leaves throughout winter, with greenish-white flower spathes appearing in spring followed by brilliant orange-red berries in the autumn. The berries must not be eaten.<br>FT: Spring and Summer. FH: 25 cm (10"). BS: 8/10 cm. | <b>Per 5</b><br>3.50 | <b>Per 15</b><br>9.95 |
|---|--------------|-----------------|---|----------------------|-----------------------|

## BELLEVALIA

A striking genus of the Hyacinthacea family showing the best of blue shades. Easy to cultivate and frost hardy.

|              |                  |   |                       |                        |
|--------------|------------------|---|-----------------------|------------------------|
| <b>M5174</b> | <b>Pycnantha</b> | Cone-shaped navy blue flowers.<br>FT: April-May. FH: 25-30 cm (10-12"). BS: 6/+ cm. | <b>Per 10</b><br>5.00 | <b>Per 30</b><br>14.30 |
|--------------|------------------|---|-----------------------|------------------------|

## CALOCHORTUS

Likes a sunny, sheltered well-drained position in the garden. Often called 'Fairy Lanterns'.

|              |               |  |                       |                       |
|--------------|---------------|--|-----------------------|-----------------------|
| <b>M5198</b> | <b>Cupido</b> | Named after a species of butterfly, these pretty little plants produce violet-pink cup-shaped flowers.<br>FT: June. FH: 30 cm (12"). BS: 4/+ cm. | <b>Per 10</b><br>3.40 | <b>Per 30</b><br>9.70 |
|--------------|---------------|--|-----------------------|-----------------------|

## THE LURE OF THE LITTLE

Most gardeners are familiar with the more common small bulbs such as Croci, Snowdrops, Muscari and Scillas. But there are many other delightful small-flowering bulbs which are overlooked: we suggest miniature Narcissi, Species Tulips, Chionodoxa, Eranthis, Fritillaria Meleagris and Iris Reticulata.

**ERANTHIS (Winter Aconite)**

Once established, Aconites spread by self-seeding, forming thickly populated colonies. They are happy in any well-drained soil; best position is under deciduous trees and shrubs where the low angled winter sun can penetrate beneath the branches. The small tubers should be planted 4 cm (1.5") deep, 5-7 cm (2-3") apart.

|              |                 |   |                       |                        |
|--------------|-----------------|---|-----------------------|------------------------|
| <b>M5301</b> | <b>Cilicica</b> | Deep yellow, bronzy foliage, more finely cut than E. Hyemalis, also blooms later. Will seed freely. FT: January-February. FH: 5 cm (2"). BS: 5+ cm.                             | <b>Per 10</b><br>7.75 | <b>Per 30</b><br>22.10 |
| <b>M5302</b> | <b>Hyemalis</b> | The buttercup-yellow flowers are set in rosettes of deep green leaves. They don't mind the frost or snow. Will seed freely.<br>FT: January-February. FH: 8 cm (3"). BS: 4/5 cm. | <b>Per 10</b><br>6.60 | <b>Per 30</b><br>18.80 |

**EREMURUS (Fox Tail Lily)**

The aristocrats of garden plants, they sometimes need one or two seasons to settle down before flowering. They prefer light soil and full sun is essential. Feed well.

|              |                         |   |                       |                       |

## ERYTHRONIUM (Dog's Tooth Violet)

Graceful spring-flowering bulbs that multiply freely. Discovered in 1596. Thrive best in a moisture-retentive, yet well-drained porous soil; plant 8 cm (3") deep, 10 cm (4") apart.

|       |                         |  |                |                 |
|-------|-------------------------|--|----------------|-----------------|

| M5346 | Pagoda                  | A robust hybrid bearing 4 to 5 Dresden-yellow flowers, ringed brown in centre. Fast increaser and naturaliser. Leaves are lightly mottled.<br>FT: March-April. FH: 20 cm (8"). BS: Top Size.                             | Per 3<br>6.55  | Per 9<br>18.65  |
| M5348 | White Beauty            | One of the most beautiful, often bearing two exquisite snow-white flowers on a stem. Reflexing petals, cream anthers and chocolate-zoned centre. Richly coloured foliage. FT: March-April. FH: 20 cm (8"). BS: Top Size. | Per 3<br>10.50 | Per 9<br>29.90  |

## FREESIA

Grow under glass in loam-based potting soil with added grit. Shade from sun and keep moist until established, then grow in full light with good ventilation and water freely. Keep temperature approximately 55°F. Once flower buds appear, feed weekly with a balanced liquid fertiliser. (Corms).

### FREESIA DOUBLE

|--------------|---------------------------------------|---|-----------------------|------------------------|---|

## FRITILLARIA IMPERIALIS

Plant 15 cm (6") deep, firmly in rich well-drained soil. Failing to flower after the first year is due to a lack of potash fertilizer, essential for spurring bloom formation for the following year's flowering.

|       |                             |  |                |                |

## GALANTHUS (Snowdrop)

Snowdrop corms should be planted about 5 cm (2") deep and 8-10 cm (3-4") apart. If the clumps become too thick they can be lifted and divided immediately after flowering and before the foliage has died down.

|              |                              |  |                       |                        |                |

## HERMODACTYLUS (The Snakeshead Iris)

|              |                 |  |                      |                        |
|--------------|-----------------|--|----------------------|------------------------|
| <b>M5471</b> | <b>Tuberosa</b> | A distinct and interesting species in cultivation since 1575, often known as 'The Snakeshead Iris' or 'Widow Iris'. The fairly large erect flowers are of a peculiar olive-green shade, with dark almost black velvety purple falls, occasionally streaked with yellow or bright green.<br>FT: April-May. FH: 25-30 cm (10-12"). BS: Top Size. | <b>Per 5</b><br>3.65 | <b>Per 15</b><br>10.40 |
|--------------|-----------------|--|----------------------|------------------------|

## HYACINTHOIDES (True British Bluebells)

This group of bulbs is officially classified as Hyacinthoides and no longer Scilla. Perfect for naturalising in woodlands or other cool semi-shaded sites.

|              |                    |  |                      |                        |
|--------------|--------------------|--|----------------------|------------------------|
| <b>M5551</b> | <b>Non Scripta</b> | (English Bluebell). Graceful arching stems with clusters of purple-blue bell-shaped flowers. The true English Bluebell, a must for woodland and wild planting. Seeds freely and colonies are soon formed.<br>FT: April-May. FH: 25-30 cm (10-12"). BS: 6/+ cm. | <b>Per 5</b><br>8.70 | <b>Per 15</b><br>24.80 |
|--------------|--------------------|--|----------------------|------------------------|

## IPHEION (Triteleia)

Excellent for rockery or front of border. Plant 3-5 cm (1-2") deep in well-drained soil.

|  |                              |  |                       |                        |
|--|------------------------------|--|-----------------------|------------------------|
|  <b>M5555</b> | <b>Alberto Castillo</b>      | Perfect white flowers in abundance.<br>FT: May-June. FH: 20 cm (8"). BS: 5/+ cm.   | <b>Per 10</b><br>5.45 | <b>Per 30</b><br>15.55 |

| <b>M5737</b> | <b>Pink Sunrise</b>        | Unusual soft delicate pink flowers. FT: April-May. FH: 10-15 cm (4-6"). BS: 6/+ cm.  | Per 3<br>7.50  | Per 9<br>21.40  |   |
| <b>M5750</b> | <b>Touch Of Snow</b>       | Bright blue flowers with a white edge. Long-lasting on sturdy stems. Ideal for naturalising. FT: April. FH: 10-20 cm (4-8"). BS: 9/+ cm.   | Per 10<br>6.40 | Per 30<br>18.25 |   |
| <b>M5731</b> | <b>Valerie Finnis</b>      | An excellent variety with stems bearing pretty, clear, porcelain-blue flowers. FT: April-May. FH: 10-20 cm (4-8"). BS: 9/+ cm.   | Per 10<br>4.10 | Per 30<br>11.70 |   |
| <b>M5743</b> | <b>Muscari Mixed</b>       | A blanced mix of pink, white, blue and purple. FT: April-May. FH: 10-20 cm (4-8"). BS: 5/+ to 9/+ cm.  | Per 10<br>5.60 | Per 30<br>15.95 |   |

## NECTAROSCORDUM

Previously listed in the Allium group. Ideal for naturalising, as they grow in sun or shade and all soils.

|              |                |   |                |                 |  |
|--------------|----------------|---|----------------|-----------------|--|
| <b>M5761</b> | <b>Siculum</b> | Large blue-green, broad bell-shaped flower, broadly striped with dark brown-red on the outside, borne on long curving pedicels in large loose umbels of up to 30 flowers. FT: May-June. FH: 85 cm (33"). BS: 10/+ cm. | Per 10<br>9.10 | Per 30<br>26.00 |  |
|--------------|----------------|---|----------------|-----------------|--|

## ORNITHOGALUM

Suitable for naturalising in shrubberies, grassy banks or in the border.

|              |                   |   |                |                 |  |
|--------------|-------------------|---|----------------|-----------------|--|
| <b>M5771</b> | <b>Nutans</b>     | Lovely green and white satin-like flowers with 10 to 20 per stem. FT: April-May. FH: 25 cm (10"). BS: 6/+ cm.                 | Per 10<br>4.55 | Per 30<br>12.95 |  |
| <b>M5772</b> | <b>Umbellatum</b> | (Star of Bethlehem) Pure white starry flowers, hardy, fine for massing and edgings. FT: May-June. FH: 15 cm (6"). BS: 6/+ cm. | Per 10<br>5.00 | Per 30<br>14.30 |  |

## OXALIS (Wood Sorrel)

Lovely little plants for borders and rockery. They are also excellent as pot plants.

|              |                               |   |                |                 |   |
|--------------|-------------------------------|---|----------------|-----------------|---|
| <b>M5782</b> | <b>Iron Cross</b>             | Dainty flowers of carmine-pink with fern-green leaflets with a cross-shaped dark purple blotch. FT: April-June. FH: 8 cm (3"). BS: 5/+ cm.                    | Per 25<br>2.30 | Per 75<br>6.55  |   |
| <b>M5784</b> | <b>Triangularis Purpurea</b>  | A remarkable species with foliage of wine-red and purple-maroon and rose flowers. FT: Summer flowering. FH: 15 cm (6"). BS: Top Size.                         | Per 10<br>6.85 | Per 30<br>19.50 |   |
| <b>M5786</b> | <b>Versicolor</b>             | White funnel-shaped flowers with a raspberry-red edge. FT: October-November. FH: 10-20 cm (4-8"). BS: Top Size.   | Per 3<br>6.85  | Per 9<br>19.50  |  |
| <b>M5792</b> | <b>Versicolor Golden Cape</b> | Golden-yellow flowers, petals edged with a red stripe. Flowers open during the day and close at night. FT: August-October. FH: 10-20 cm (4-8"). BS: Top Size. | Per 3<br>8.90  | Per 9<br>25.40  |   |

## PUSCHKINIA

This dainty Scilla-like plant is most suitable to grow in clumps in a sunny rockery or planted in drifts.

|              |                   |   |                |                 |  |
|--------------|-------------------|---|----------------|-----------------|--|
| <b>M5812</b> | <b>Alba</b>       | Glorious white flowers. FT: March-April. FH: 10-15 cm (4-6"). BS: 6/+ cm.   | Per 25<br>7.30 | Per 75<br>20.80 |  |
| <b>M5811</b> | <b>Libanotica</b> | (The Striped Squill). The dainty stems bear clusters of pale blue flowers with a deeper blue streak down the centre of the petals. FT: March-April. FH: 12 cm (5"). BS: 6/+ cm. | Per 25<br>5.70 | Per 75<br>16.25 |  |

## MIXTURES OF DAFFODILS AND NARCISSI

Varieties used in the following mixtures may vary from those pictured, but colour schemes will be the same.

|       |  |   |                 |                 |
|-------|--|---|-----------------|-----------------|
| N0785 | Botanical Mix  | A well-balanced mixture of yellow, and yellow and white miniature varieties. Ideal for the rockery or the front of flower borders. FT: March-April. FH: 15 cm (6"). BS: 8-12/+ cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0771 | Double Daffodil Super Mixture                          | This excellent well-balanced mixture will appeal to all, specially made up by ourselves from distinct varieties. Ideal for naturalising and flower arrangements. FT: March-April. FH: 15-45 cm (6-18"). BS: 12/16 cm.   | Per 25<br>11.75 | Per 75<br>33.50 |
| N0772 | Flower Border Mixture                                  | This mixture is specially made up by us from named varieties and is greatly superior to the cheap mixtures frequently sold. Every bulb has been carefully chosen to give interesting variations in height and form over a long flowering period. It is therefore particularly suitable for planting in large clumps in your shrubbery or herbaceous borders where the bulbs can be left for many years. FT: March-April. FH: 40-45 cm (16-18"). BS: 12/16 cm. | Per 25<br>11.75 | Per 75<br>33.50 |
| N0777 | Miniature Narcissus Mixture                            | The Narcissi in this mixture may be small but they will provide a long season of wonderful blooms. FT: March-April. FH: 25-30 cm (10-12"). BS: 10/14 cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0780 | Pink & White Daffodil & Narcissi Mixture               | A stunning mix of varieties with ivory to white petals and pink, salmon or apricot cups. FT: March-April. FH: 35-45 cm (12-18"). BS: 10/14 cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0774 | Tazetta Multi-Flowering Super Mixture                  | This delightful mixture will appeal to all, specially created by ourselves from distinct varieties, many of which are deliciously fragrant. FT: March-April. FH: 30-42 cm (12-16"). BS: 12/16 cm.   | Per 25<br>11.75 | Per 75<br>33.50 |
| N0781 | Tazetta Yellow & White Cheerfulness Mixture            | An even mixture of yellow and white Cheerfulness. FT: April. FH: 40 cm (16"). BS: 14/16 cm.   | Per 25<br>11.75 | Per 75<br>33.50 |
| N0782 | Triandrus Narcissi Thalia & Sunlight Sensation Mixture | A balanced mix of the Thalia and Sunlight Sensation. FT: April. FH: 30 cm (12"). BS: 12/16 cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0778 | Trumpet Daffodil Mixture                               | A spectacular mixture of the finest trumpet daffodils including yellows, whites and bicolours. FT: March-April. FH: 35-45 cm (14-18"). BS: 12/16 cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0779 | Yellow & White Trumpet Daffodil Mixture                | This mixture includes Yellow and White Trumpets in proper proportions selected to provide a stunning display over a long period. FT: March-April. FH: 35-45 cm (14-18"). BS: 12/16 cm.  | Per 25<br>11.75 | Per 75<br>33.50 |
| N0775 | 10 kg (approx. 140-160 bulbs)                          | A well-balanced mixture superior to mixtures usually sold elsewhere. A mix of all types of Daffodils and Narcissi for naturalising. The bulbs offered as lifted, which means they are not graded but are all of flowering size. FT: March-April. FH: 30-45 cm (12-18"). BS: 10/12 cm up to 14/16 cm as lifted.  | 10kg<br>39.05   |                 |
| N0776 | 25 kg (approx. 350-400 bulbs)                          | A well-balanced mixture superior to mixtures usually sold elsewhere. A mix of all types of Daffodils and Narcissi for naturalising. The bulbs offered as lifted which means they are not graded, but are all of flowering size. FT: March-April. FH: 30-45 cm (12-18"). BS: 10/12 cm up to 14/16 cm as lifted.  | 25kg<br>92.70   |                 |

Division 1  
LARGE TRUMPET DAFFODILS

|       |                            |  |                |                 |
|-------|----------------------------|--|----------------|-----------------|
| N0097 | British Gamble             | Large white perianth, the pale lemon trumpet has an apricot-pink frilled edge. FT: February. FH: 40 cm (16"). BS: 14/16 cm.  | Per 5<br>13.70 | Per 15<br>39.05 |
| N0156 | Desdemona                  | The fine perianth stands at right angles to the lovely white cup which is almost trumpet length and slightly flared at the mouth. The flowers have a satin-smooth texture and are nicely poised with good upright foliage. Winner at daffodil shows. FT: March-April. FH: 35 cm (14"). BS: 14/16 cm. | Per 5<br>10.40 | Per 15<br>29.65 |
| N0102 | Dutch Master               | Rich golden-yellow, broad overlapping perianth with a deeply serrated large trumpet. Strong stems. FT: March. FH: 40 cm (16"). BS: 14/16 cm.   | Per 5<br>6.00  | Per 15<br>17.10 |
| N0109 | Las Vegas                  | Ivory-white with a vivid yellow cup. Large flowers on sturdy stems. Very long-lasting. Best performing variety of all bicolours. FT: March. FH: 40 cm (16"). BS: 14/16 cm.   | Per 5<br>8.30  | Per 15<br>23.65 |
| N0108 | Marieke                    | Large golden-yellow perianth with deeper yellow trumpet, tinged green at the base. Very long-lasting. FT: March. FH: 40 cm (16"). BS: 12/14 cm.  | Per 5<br>5.15  | Per 15<br>14.70 |
| N0104 | Mount Hood                 | Vigorous, best white trumpet for gardens. Trumpet opens creamy-yellow but quickly shades to white; strong grower. FT: April. FH: 42 cm (17"). BS: 14/16 cm.  | Per 5<br>8.30  | Per 15<br>23.65 |
| N0124 | Orange Sunset              | White petals with a yellow-orange trumpet. FT: March-April. FH: 45 cm (18"). BS: 12/+ cm.  | Per 5<br>5.80  | Per 15<br>16.55 |
| N0122 | Pistachio                  | Soft yellow petals, with a creamy-lemon cup edged with deep yellow. FT: March-April. FH: 35 cm (14"). BS: 14/16 cm.  | Per 5<br>10.40 | Per 15<br>29.65 |
| N0110 | Rijnveld's Early Sensation | Creamy-yellow perianth with golden trumpet. One of the first to flower, often as early as late January. FT: February-March. FH: 35 cm (14"). BS: 14/16 cm.   | Per 5<br>8.90  | Per 15<br>25.40 |
| N0123 | Topolino                   | Pale creamy-white petals with a lemon-yellow trumpet. Good for naturalising. FT: March-April. FH: 15 cm (6"). BS: 9/+ cm.  | Per 5<br>3.50  | Per 15<br>9.95  |

## Division 6 DWARF CYCLAMINEUS

Best known for their reflexing flower petals, which resemble those of cyclamen, they are among the earliest to flower and are ideal for rockeries, pots, window boxes and tubs.

## Division 7

### JONQUILLA NARCISSI

All sweetly fragrant, Jonquilla Narcissi have slender foliage and stems bearing from 2 to 6 flowers with small cups.

|  |                                     |   |                |                 |   |
|--|-------------------------------------|---|----------------|-----------------|---|
| <b>N0493</b>   | <b>Jonquilla Anfield</b>            | Bright yellow outer petals with an orange-yellow corona. Two flowers per stem. FT: March-April. FH: 30 cm (12"). BS: 12/14 cm.  | Per 5<br>4.40  | Per 15<br>12.55 |   |
| <b>N0494</b>   | <b>Jonquilla Baby Boomer</b>        | Dainty yellow flowers with deep orange-yellow cups. Six to eight flowers per stem. FT: April. FH: 15-20 cm (6-8"). BS: 12/+ cm.   | Per 5<br>4.40  | Per 15<br>12.55 |   |
| <b>N0451</b>   | <b>Jonquilla Baby Moon</b>          | Clusters of up to 6 very strongly scented, deep yellow flowers to a stem. Free-flowering. FT: April. FH: 15 cm (6"). BS: 8/+ cm.  | Per 5<br>2.70  | Per 15<br>7.70  |    |
| <b>N0452</b>   | <b>Jonquilla Bell Song</b>          | Ivory-white petals with light pink cup. FT: April. FH: 30-40 cm (12-16"). BS: 12/14 cm.   | Per 5<br>5.15  | Per 15<br>14.70 |   |
| <b>N0482</b>   | <b>Jonquilla Blushing Lady</b>      | Soft yellow flowers changing to white with pale apricot cup. Two to three scented flowers per stem. FT: April. FH: 35 cm (14"). BS: 12/14 cm.   | Per 5<br>5.40  | Per 15<br>15.40 |    |
| <b>N0453</b>   | <b>Jonquilla Campernelle Double</b> | (Olorus Plenus). Producing up to 4 deep yellow double flowers. Very fragrant. This is the true 'Queen Anne's Double Jonquil'. FT: April. FH: 35 cm (14"). BS: 10/+ cm.  | Per 5<br>4.15  | Per 15<br>11.90 |    |
| <b>N0478</b>   | <b>Jonquilla More and More</b>      | Multi-headed deep yellow flowers with up to four stems per bulb and one to four flowers per stem. FT: May. FH: 20 cm (8"). BS: 6/+ cm.  | Per 5<br>3.85  | Per 15<br>11.00 |    |
| <b>N0483</b>   | <b>Jonquilla Orange Queen</b>       | Warm yellow flowers with orange-yellow cup, slightly ruffled at the edges. FT: March-April. FH: 25-30 cm (10-12"). BS: 10/+ cm.   | Per 5<br>9.10  | Per 15<br>26.00 |   |
| <b>N0458</b>   | <b>Jonquilla Pipit</b>              | An unusual colour combination but a very attractive variety. Perianth greenish lime-yellow; the small cup opens in the same shade as perianth but becomes nearly white as the flower ages. Two to four flowers per stem. FT: March-April. FH: 23 cm (9"). BS: 12/14 cm. | Per 5<br>4.15  | Per 15<br>11.90 |    |
| <b>N0459</b>   | <b>Jonquilla Pueblo</b>             | It opens as a pale bicolor but soon turns white. One to three flowers per stem, very vigorous and prolific. FT: March-April. FH: 28 cm (11"). BS: 12/14 cm.   | Per 5<br>4.15  | Per 15<br>11.90 |    |
|  <b>N0469</b> | <b>Jonquilla Quail</b>              | Golden-yellow. Looks delicate but is actually very robust. Two to three sweetly scented flowers per stem. FT: April. FH: 25 cm (10"). BS: 12/14 cm.   | Per 5<br>4.15  | Per 15<br>11.90 |   |
|  <b>N0477</b> | <b>Jonquilla Sabrosa</b>            | Soft lemon-yellow flowers with a slightly darker cup. Long-lasting fragrant flowers. FT: April. FH: 25 cm (10"). BS: 8/+ cm.  | Per 5<br>3.40  | Per 15<br>9.70  |    |
|  <b>N0474</b> | <b>Jonquilla Sailboat</b>           | Delicate white flowers with cream cups. Two to three blooms per stem. Fragrant. FT: April. FH: 25 cm (10"). BS: 12/+ cm.  | Per 5<br>5.00  | Per 15<br>14.30 |    |
|  <b>N0460</b> | <b>Jonquilla Sun Disc</b>           | Rounded flowers of an intriguing shade of yellow with flat eye. One of the most perfect of all daffodils. Very rapid increaser. FT: April. FH: 15 cm (6"). BS: 10/+ cm.   | Per 5<br>2.70  | Per 15<br>7.70  |    |
| <b>N0491</b>   | <b>Jonquilla Yellow Sailboat</b>    | Lemon-yellow flowers with reflexed petals, two to three blooms per stem. Fragrant. FT: April. FH: 25 cm (10"). BS: 12/+ cm.   | Per 5<br>3.95  | Per 15<br>11.30 |    |
| <b>N0492</b>   | <b>Jonquilla Two Tone Mix</b>       | Mixture of Sailboat and Yellow Sailboat. FT: April. FH: 25 cm (10"). BS: 12/+ cm.   | Per 10<br>8.00 | Per 30<br>22.80 |    |

## Division 9

### POETICUS NARCISSI

Traditionally known as the 'Poet's Narcissi', these ageless favourites have a very large white perianth with small cup in contrasting colours. They impart a lovely fragrance throughout the garden and are known to naturalise very well.

|  |               |   |                |                 |   |
|--|---------------|---|----------------|-----------------|---|
|  <b>N0561</b> | <b>Actaea</b> | Large flower with snow white perianth and a conspicuous canary-yellow eye edged bright red. Excellent for naturalising. FT: April. FH: 40 cm (16"). BS: 14/16 cm. | Per 5<br>11.80 | Per 15<br>33.65 |  |
|--|---------------|---|----------------|-----------------|---|

## Division 12

### MISCELLANEOUS

This group contains varieties that do not fit into the other divisions.

## Division 10

### SPECIES

Ideal for rock gardens and wild parts of the garden, for outdoor pots or in the cold greenhouse. Can be left to grow naturally and will improve the longer they are left.

|   |              |                                    |   |               |                 |   |            |
|---|--------------|------------------------------------|---|---------------|-----------------|---|------------|
|   | <b>N0582</b> | <b>Canaliculatus</b>               | Heads of 3 to 4 sweetly-scented flowers, white perianth and golden-yellow cup; erect blue green foliage. FT: March-April. FH: 15 cm (6"). BS: 12/+ cm.  | Per 5<br>3.20 | Per 15<br>9.10  |  |            |
|   | <b>N0584</b> | <b>Golden Bells</b>                | A sport of n. Bulbocodium. Very free-flowering. One bulb will produce up to 15 rich golden-yellow flowers. FT: March-April. FH: 20 cm (8"). BS: 7/+ cm.   | Per 5<br>5.00 | Per 15<br>14.30 |   |            |
|  | <b>N0591</b> | <b>Little Gem</b>                  | Pale gold miniature trumpet narcissi.<br>FT: March-April. FH: 15-20 cm (6-8"). BS: 8/+ cm.  | Per 5<br>7.30 | Per 15<br>20.80 |   |            |
|  | <b>N0585</b> | <b>Obvallaris</b>                  | (The Tenby Daffodil). Medium-sized flowers of pleasing symmetry, yellow perianth and trumpet. Very early. Does well grown in partial shade and is one of the finest varieties for naturalising. FT: March. FH: 28 cm (11"). BS: 12/+ cm.            | Per 5<br>6.85 | Per 15<br>19.50 |   | <b>NEW</b> |
|  | <b>N0586</b> | <b>Pheasants Eye</b>               | (syn. Recurvus). Pure white perianth, yellow eye margined deep orange-red. Fragrant, a favourite old variety for massing in woods, grass, etc. The latest of all daffodils to flower. FT: April. FH: 40 cm (16"). BS: 14/+ cm.                      | Per 5<br>6.20 | Per 15<br>17.65 |  |            |
|  | <b>N0587</b> | <b>Pseudonarcissus (Lobularis)</b> | (Lobularis - The Lent Lily). Perianth creamy-white with yellow trumpet. A small plant which is suitable for naturalising in grass, woodlands, etc. May need a few seasons before becoming fully established. FT: March. FH: 15 cm (6"). BS: 5/6 cm. | Per 5<br>7.45 | Per 15<br>21.25 |   |            |
|  | <b>N0590</b> | <b>Spoirot</b>                     | Ivory-white narrow pointed perianth and a deep bow-shaped cup with a slightly wavy rim. FT: March-April. FH: 20 cm (8"). BS: 7/+ cm.  | Per 5<br>9.55 | Per 15<br>27.20 |   |            |
|   | <b>N0595</b> | <b>White Petticoat</b>             | White funnel-shaped cups surrounded with short narrow petals. Grass like foliage. Ideal for pots and front of flower border.<br>FT: March-April. FH: 20 cm (8"). BS: 6/+ cm.  | Per 5<br>5.15 | Per 15<br>14.70 |   |            |

## Division 11

### SPLIT CORONA

Distinguishing characteristic is a split cup or corona, so giving the flowers an orchid-like appearance.

|   |              |                   |   |                |                 |  |            |
|---|--------------|-------------------|---|----------------|-----------------|--|------------|
|   | <b>N0643</b> | <b>Cassata</b>    | Greenish-white perianth with large pale yellow corona.<br>FT: March-April. FH: 38 cm (15"). BS: 14/+ cm.  | Per 5<br>7.25  | Per 15<br>20.65 |  |            |
|   | <b>N0653</b> | <b>Cum Laude</b>  | White with unusual apricot frills at the centre. Stunning.<br>FT: March. FH: 25 cm (10"). BS: 14/16 cm.   | Per 5<br>8.30  | Per 15<br>23.65 |  |            |
|   | <b>N0670</b> | <b>Fire Drill</b> | Frosty-white petals surrounding a ruffled bright pink cup.<br>FT: March-April. FH: 40 cm (16"). BS: 14/16 cm.   | Per 5<br>14.50 | Per 15<br>41.30 |  | <b>NEW</b> |
|  | <b>N0648</b> | <b>Tripartite</b> | Strong late-flowering plant quite distinct from other split coronas, bearing 2 or 3 shining lemon-gold flowers per stem; the split corona lies almost flat on the perianth segments. Good increaser. FT: April. FH: 30 cm (12"). BS: 12/+ cm. | Per 5<br>4.15  | Per 15<br>11.90 |  |            |

## RARE AND FINE TULIP SPECIES

Tulips will thrive in any type of well-drained soil and locality, but after they have flowered be sure to remove any decaying petals or foliage from the soil. For best results plant late September-October onwards, when temperatures drop.  
All our quality tulips are Top Size.

**DARWIN HYBRID TULIPS (Late April-May Flowering)**

These modern varieties are a cross between Darwin and Fosteriana. The rounded flowers are the largest yet introduced. Most striking when planted in clumps in the border etc.

## MID-SEASON TULIPS (April-May Flowering)

This class fills the gap between the low-growing early tulips and the tall lates. The colours are bright and long-lasting. The stems are short and sturdy.

|   |              |                                 |  |                        |                        |   |

P. de Jager & Sons Limited have been selling top quality, top size bulbs for over 154 years. We cannot overemphasise the importance of size. Top size bulbs really do make a huge difference both in terms of flowering and naturalisation.

Smaller size bulbs will be less expensive but the results will be very noticeably inferior.

In order to illustrate the contrast in size, we have photographed a de Jager Amaryllis bulb beside one purchased from a garden centre. You can see the difference! All de Jager top bulb sizes are published in our catalogues.

## Flower Bulb Care

Unpack bulbs on arrival, or at least separate the bags and open them.  
It is essential to have fresh air circulating between opened boxes and bags.  
Remember: fresh air, circulation, even temperatures, are the key factors to good results.

## PAEONY-FLOWERING TULIPS (April-May Flowering)

This section of April-May flowering tulips will create an outstanding effect in the garden. Robust in habit, their large flowers resemble paeonies. Not recommended for forcing.

## PICTORIAL MEADOWS MIXTURES

These Meadow Mixtures are carefully blended seed mixes of native and non-native hardy species, designed to provide high quality flowering displays. They have been developed following several years of intensive trials at the University of Sheffield. Unlike other mixes that are available, they will flower and provide visual interest over an extremely long period of time (from summer through to late autumn) and are formulated to produce a succession of flowering species.

They inject drama into large-scale commercial landscapes and create sparkling, complex and intricate pictures in the very smallest of spaces. They provide a colourful, wildlife-friendly replacement for mown grass; they can be sown formally in beds or to provide colour between shrubs, trees and perennials. Leeds City Council included a meadow mixture in their magnificent Gold Medal winning garden at the Chelsea Flower Show in 2010, and these mixtures have been used extensively in the Olympic Park.

Sow the Annual seed mixes at a rate of 2-3g per square metre in the spring - March, April or May - and they will produce superb colour displays within 8 weeks or so of sowing. The Perennial seed mixes all contain over 20 species of plants, and should be sown at a rate of 2g per square metre (except Purple Haze - 3g per sq. m.) from early autumn to late spring, with October/November being the best for medium to large scale plantings. Once established the meadow can be managed simply with an annual cut in late February.

|--|--------------|--------------------------------------|--|------------------|-------------------|
|    | <b>SD111</b> | <b>Classic Annual Mix</b>            | The original Pictorial Meadows mix is illustrated in the main picture opposite (taken at The Eden Project) and produces stunning displays right through until late October/November. Starting out with white, blues, pinks and reds, the tapestry turns to reds, orange and yellow in the autumn. The mix has been carefully balanced for colour and succession of flowering, and components include: Shirley Poppy, Californian Poppy, Cornflower, Fairy Toadflax, Tickseed, Red Orache and Larkspur. FH: up to 1m (39"). | Per 50g<br>24.00 | Per 100g<br>45.00 |
|    | <b>SD141</b> | <b>Cornfield Annual Mix</b>          | A carefully selected mix of pretty cornfield annuals that will flower mainly in July and August, including: Field Poppy, Cornflower, Scentless Mayweed and Corncockle. FH: up to 1m (39").   | Per 50g<br>24.00 | Per 100g<br>45.00 |
|    | <b>SD161</b> | <b>Pixie Annual Mix</b>              | A mix suited especially to more restricted or compact situations, but having the same long-flowering characteristics of the standard mixture; components include: Fairy Toadflax, Red Flax, Shirley Poppy, Love-in-amist, Candytuft and Blue Flax. FH: up to 50 cm (20").  | Per 50g<br>24.00 | Per 100g<br>45.00 |
|   | <b>SD261</b> | <b>Cottage Garden Perennial Mix</b>  | A tall, dramatic, colourful, and long season meadow. It was initially designed to be sown over pure brick rubble on housing demolition sites, but finds itself equally at home in garden soils. This meadow offers fantastic variety and is jam-packed full of species that work wonderfully together, providing drama and colour from early Spring, right through to late Autumn. On very low fertility soils, an annual cut and collect is not always necessary.   | Per 20g<br>39.00 | Per 40g<br>70.00  |
|  | <b>SD251</b> | <b>Persian Carpet Perennial Mix</b>  | A flowering meadow with a very long season, and complex and subtle colour combinations throughout the year. Also perfect for narrow borders and edges. Includes: Carthusian Pink, Dianthus carthusianorum, Hard Fescue, Festuca longifolia, Maltese Cross, Lychnis chalcidonica, Vipers Bugloss and Echium vulgare.  | Per 20g<br>39.00 | Per 40g<br>70.00  |
|  | <b>SD211</b> | <b>Tuscan Hills Perennial Mix</b>    | A warm, vibrant mixture for normal fertility soils. Mostly yellows and golds with white, hints of orange and flashes of later purples, our most popular perennial mix performs best in free-draining, sunny spots. Includes: Blackeyed Susan, Rudbeckia hirta, Sea Holly, Eryngium planum, Yarrow, Achillea millefolium, Yellow Ox Eye, Buphthalmum salicifolium.  | Per 20g<br>39.00 | Per 40g<br>70.00  |
|  | <b>SD221</b> | <b>Moody Blues Perennial Mix</b>     | A beautiful, cool, elegant combination for normal fertility soils, this mix will perform quite happily in semi-shade. Predominantly mauve and blue with billows of white and flashes of purple. Includes: Michaelmas Daisy, Greater Knapweed, Field Scabious, Wild Carrot, Perennial Flax, Purple Coneflower, Ox-eye Daisy and Columbine. FH: up to 50 cm (20").   | Per 20g<br>39.00 | Per 40g<br>70.00  |
|  | <b>SD231</b> | <b>Turkish Delight Perennial Mix</b> | A gorgeous, robust and very richly coloured carpet designed for a long flowering season on normal fertility soils. Includes: Field Scabious, Knautia arvensis, Great Burnet, Sanguisorba officinalis, Meadow Cranesbill and Geranium Pratense.   | Per 20g<br>39.00 | Per 40g<br>70.00  |

NEW

## FREQUENTLY ASKED QUESTIONS

### Q. Is there any grass seed content?

A. There is no grass content to the mixes. Don't mix with grass as it will kill off the flowers.

### Q. Can I just scatter the flowers over existing grass to create a meadow effect?

A. Unfortunately not - the seeds have to be sown on bare soil.

### Q. Will the annual mixes self-seed?

A. Only some of the species in the annual mixes will. To get the same effect you have to resow each year.

### Q. Will birds eat the seed?

A. No, they are too small for them to notice.

### Q. Will the mixes work in Sandy/Chalky/Clay soil?

A. Yes. They will work on all types of soil, but for these mixes, the better the soil the better the result.

### Q. Do I need to water the seeds if it doesn't rain once I've sown them?

A. For annuals no there is usually enough rain eventually and if you over-water they could rot before they germinate. However, if there is prolonged drought after you have sown then you could try watering once a week. Perennials are more demanding and we recommend irrigation in Spring.

### Q. Will the mixes work in shady areas?

A. Yes, but the mixes do need sunshine at some point during the day.

### Q. Can I combine the annual and perennial seed mixes?

A. We don't recommend this, as each seed mix is carefully formulated to produce a specific result.

### Q. How long will the seed keep if I don't use it all?

A. Usually for several years - keep stored in a cool dry place.

Please order early to ensure you obtain the varieties you require.

## PLANTING DEPTH

Failures with bulbs are most frequently due to their having been planted too deep or too shallow. A good general rule to follow is to cover the bulb with soil one and a half to twice its own depth, measuring the bulb from the base to the shoulder. Thus a bulb measuring 2 inches from the base to the shoulder should be covered with 3-4 inches of soil. Always unpack bulbs on arrival and leave bags open so air can circulate until planting.

## Thank You For Your Order

## RETAIL PRICE LIST FOR AUTUMN 2023

### TERMS OF BUSINESS

#### Commitment

1. We pride ourselves on the depth of our knowledge, gained over the past 155 years. We are constantly on the look-out for interesting new varieties, as well as tracking down some of the rarer species. There is something for everyone in our catalogue.
2. All bulbs and plants offered are in conformity with British Community Regulations, are of the highest quality and of top size or as stated. All supplies are subject to availability.
3. CONSERVATION POLICY – Our bulbs and plants are not collected from wild sources, only cultivated stocks are supplied.
4. The descriptions of the varieties shown in our catalogue are accurate; illustrations are only a likeness due to certain limitations in printing.

#### Payment & Pricing

5. The placing of an order constitutes an agreement to purchase on the business terms stated in this catalogue.
6. Payment is required and will be processed at the time of placing an order. Payment may be made by cheque or any major debit or credit card.
7. All prices include VAT.
8. Prices quoted in this catalogue supersede all those given in previous catalogues. We reserve the right to amend prices when necessary without notice.
9. Unless instructed to the contrary, we reserve the right, if a variety is unavailable or below standard, to substitute others of equal or greater value. Any goods received which are found to be unsatisfactory must be returned within seven days for free replacement or refund.
10. All orders are executed in rotation as the goods become available. Despatch of the items listed in this catalogue will take place between mid September to late October, subject to weather conditions and availability of stocks.

#### Carriage

11. Current charges are as below and include VAT:

|        |  |
|--------|--|
| £5.95  | England, Wales, Scotland and Northern Ireland    |
| £14.95 | Isle of Man, Isles of Scilly and Channel Islands |

12. Orders to EU Countries and rest of the world are currently suspended. Contact us for further information.
13. Orders may be collected from our premises, subject to prior arrangement.
